

How will I know if Detox Cleansing Deodorant™ is working?

Detox Cleansing Deodorant is designed to cleanse unwanted debris and impurities, in a two step process when used in combination with either Tropical Cove™ or No Added Fragrance daytime deodorant.

Initially you may experience a heavier than normal degree of odor and perspiration, resulting from trapped impurities. Depending on lifestyle choices such as diet and exercise, it may take up to 30 days to notice a reduction in day or nighttime body odor.

Detox Cleansing Deodorant in best used in a continual maintenance program. By doing so, conditions of odor will be minimized.

The graph below illustrates the balance reduction of aluminum in one week using Detox Cleansing Deodorant.
